
Purpose

This policy and its related procedures are developed to ensure that Nationally Recognised Training and accredited courses on Safeguard Training & Services scope of registration are delivered and assessed in accordance with the VET Quality Framework and are designed, developed and executed to the highest possible standards so as to benefit all participants. STS shall ensure that the delivery and assessment of Nationally Recognised Training, directly or in its behalf under a registered third-party agreement complies with all aspects of the VET Quality Framework.

Scope

This policy relates to Safeguard Training & Services RTO 90987, its trainers and assessors and employed staff. It includes any third-party providing services on behalf of Safeguard Training & Services including their trainers and assessors and administration staff. It also covers students of the Safeguard Training & Services and third-party providers.

Policy Statement

The purpose of this policy is to affirm the commitment of Safeguard Training & Services to the ongoing process of developing, implementing and reviewing Training and Assessment strategies and practices.

This policy will ensure that learners, employers and industry have confidence in the integrity, currency and value of certification documents issued by Safeguard Training & Services through its high-quality training and assessment practices that:

- meet the requirements of the relevant training packages and VET accredited courses on STS scope of registration.
- is responsive to industry and learner needs; and
- is delivered by appropriately qualified trainers and assessors with the right support services, facilities and equipment.

In order to achieve the above-mentioned policy statements, Safeguard Training & Services shall ensure the following occurs:

Industry consultation processes to identify the needs and components of Training and Assessment Strategies and practices in line with the Training package requirements.

The collection and analysis of the feedback and satisfaction data from staff, third parties and students on the Training and Assessment practices currently conducted by STS and its third parties for the courses within the scope of STS.

Developing Training and Assessment strategies with implementation procedures to meet the

training package requirement for each course type developed.

Adopt, document and comply with appropriate protocols to ensure that all Training and Assessment Strategies are reviewed, evaluated and updated from time to time as appropriate to ensure that they continue to comply with regulatory requirements.

STS Training and Assessment Strategies and Practices are documented in the trainer Guide, which include:

-  Training and Assessment Strategy Course Session Plan
-  Assessor Marking Guide

STS Training and Assessment Strategies and Practices will:

ensure that the amount of training required for the learner to gain the competencies as specified in the relevant training package or VET accredited course on STS scope of registration. The amount of training will vary depending on the existing skills and knowledge of the learner and the mode of delivery.

include the amount of training it provides, and are consistent with the requirements of training packages and VET accredited courses on STS scope of registration which will enable each learner to meet the requirements for each unit of competency in which they are enrolled.

To ensure that STS can achieve this goal, they will determine the amount of training they provide to each learner with regard to the existing skills, knowledge, and the experience of the learner the.

STS has for all of its courses on its scope of registration, consistent with its training and assessment strategies, sufficient:

trainers and assessors to deliver the training and assessment;

educational and support services to meet the needs of the learners undertaking the training and assessment;

learning resources to enable learners to meet the requirements for each unit of competency, and which are accessible to the learner regardless of location or mode of delivery; and

facilities and equipment to accommodate and support the number of learners undertaking the training and assessment.

STS Training and Assessment practices are relevant to the needs of industry and are informed by industry engagement during development of the course and as part of continuous improvement during delivery.

STS will implement a range of strategies for industry engagement and systematically uses the outcome of this industry engagement to ensure the industry relevance of its training and assessment strategies:

ensuring that the selection of elective units of competency for each qualification are relevant to the job outcomes being addressed within each qualification;

the selection and clustering of units for a custom course type is reflective of industry needs;

its training assessment practices, resources and tools reflect current industry requirements;

the current industry skills of STS trainers and assessors;

ensuring STS trainers and assessors possess current industry skills relevant to the qualification that they are delivering and assessing.

All Trainers delivering training and assessment on behalf of STS will have access to a copy of the Facilitator Guide (including the Training and Assessment Strategy, Course Session Plan,

Responsibilities

The CEO is responsible for ensuring this Policy is implemented and reviewed for effectiveness ensuring students are provided with high quality training and assessment services in compliance with regulatory guidelines, the Standards for RTOs and Training Package requirements.

The General Manager of Regulatory Compliance is responsible for implementing, reviewing, monitoring, and ensuring compliance with this policy.

Reporting

No additional reporting is required.

Records management

Employees must maintain all records in the STS database relevant to administering this policy securely.

Definitions

Terms and definitions

| Term | Definition |
|------------------------------------|--|
| Assessment | According to the Standards for Registered Training Organisations (RTOs): <ul style="list-style-type: none">Assessment means the process of collecting evidence and making judgements on whether competency has been achieved, to confirm that an individual can perform to the standard required in the workplace, as specified in a training package or a vocational education and training (VET) accredited course.An assessment system is a coordinated set of documented policies and procedures (including assessment materials and tools) that ensure assessments are consistent and are based on the Principles of Assessment and the Rules of Evidence. |
